DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5, drawn to a corrosion resistant rare earth magnet and method for preparing a corrosion resistant rare earth magnet.

Group II, claim(s) 6-11, drawn to a corrosion resistant rare earth magnet and method for preparing a corrosion resistant rare earth magnet.

Group III, claim(s) 12-16, drawn to a corrosion resistant rare earth magnet and method for preparing a corrosion resistant rare earth magnet.

The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group II and Group III do not share the special technical features of the metal sol of Group I, Group I and Group III do not share the special technical features of the silane or partial hydrolyzate of Group II, and Group I and Group II do not share the special technical features of the alkali silicate of Group III.

A telephone call was made to Stephen G. Adrian on 5/13/2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
